

OTAGO ASSOCIATION FOR GIFTED CHILDREN

welcomes **Jacqui Seque** to speak about Concord School's support for Gifted and Talented children:

Curious Minds

Wednesday 14th March 2012 7.30pm

Concord School, 5 Thoreau Street

Cost: OAGC Members FREE, non-members: GOLD-COIN

For directions: <http://www.concord.school.nz/contact/>

Jacqui has been teaching Primary children for 25 years and first took an interest in gifted and talented education 16 years ago when attending a course led by Rosemary Cathcart.

Jacqui's work in this area has led to policy-writing, building a teacher and parent committee, training staff in gifted identification and eventually developing ways to cater for the gifted students in their school. The Curious Minds Programme is just one way that the school meets these students' needs.

The presentation will cover:

Identification ☺ **The gifted math's student**
Communicating with the board, parents and teachers
Procedure-writing for identification and programmes
Using circle time and positive psychology to help the
social needs of gifted children
Practical ideas to use in the classroom ☺ **Profiles**
The Curious Minds Programme

For more information about the presentation or OAGC please contact:

I dug things up. I was curious. I liked to draw what I found - [Mary Leakey](#).
